

# **Computer Society of Anna University**

### **Activities in the Odd Semester:**

- Intern Guidance Program

### **Courses:**

- Web Development
- Game Development

### **Intern Guidance Program:**

It was held on 1<sup>st</sup> August. This program was conducted for the benefit of the third years and second years, so that they could get an insight regarding internships. The lecture was given by the final year students who had done their interns in reputed institutions.

### **Web Development Course:**

This course commenced on 1<sup>st</sup> October 2013 and the classes were conducted on every Tuesdays. More than forty students attended this course.

### **Game Development:**

The Game Development course started in the third week of October and classes were conducted on every Thursdays.

### **Action Plan for the Even Semester:**

- Perceptual Computing
- Photography Classes for the first years
- Photoshop Classes for the first years
- Sparks for the School Students
- Cursor – Online Magazine
- Brain Scan Event
- Mini Projects (Android App Development)

**Perceptual Computing:**

Programming for applications to incorporate gesture recognition, face recognition, voice recognition etc.,

**Photography:**

One day session will be held where the students will be taught about the techniques of taking photographs and about DSLR's.

**Photoshop:**

Photoshop is a graphics editing program. In this class, students will be taught to design posters, greeting cards etc.,

**Sparks:**

Sparks is an event held exclusively for the school students. It will be organized by the second years. It provides them a good platform to learn managerial skills.

**Cursor:**

Online magazine containing news regarding the latest technologies, gadgets, techtoons etc.,

**Brain Scan:**

A mixture of Puzzles, GK, Aptitude, Basic Sciences and Math. It is a 24 hours event exclusively for the first years.

**Mini Project:**

Second and the third years will be engaged in developing android applications and other useful applications.
